

Plastics Industry Clean-up

Be A Contributing Supporter

When: 9 a.m. to Noon, Wednesday, September 21
During the PLASTICS Annual Meeting & Fall Conference

Where: A local park along the Swannanoa River, Asheville, N.C.

Why: To show your company's support of the clean-up organized by PLASTICS' FLiP Committee

How: Contribute \$500 as a Contributing Supporter

In conjunction with the PLASTICS Annual Meeting and Fall Conference, the PLASTICS Future Leaders in Plastics (FLiP) Committee is organizing a Plastics Industry Clean-Up.

The FLiP Community Impact Task Force, which is leading the clean-up, was established in April to foster collaboration among PLASTICS member companies and external organizations to provide an outlet for the industry to give back and positively impact the environment and communities in which the plastics industry serves. The PLASTICS clean-up is one week after National Clean Up Day and International Coastal Clean Up Day.

FLiP is coordinating with Asheville-based [RiverLink](#) to develop the clean-up at a local park along the Swannanoa River.

Contributions will go toward: Transportation For Volunteers | Clean-Up T-Shirts
Supplies | Bottled Water

PLASTICS also will make a contribution to RiverLink to support the organization's work throughout the Asheville watershed.

All Supporters will be recognized on communications related to the Clean-up, on the event website and at the Annual Meeting & Fall Conference.
